

# Farhan Ahmad

## React Developer

As a skilled and enthusiastic React developer, I am driven by a passion for creating dynamic and responsive web applications. I possess a solid foundation in React and its ecosystem, with expertise in developing responsive user interfaces, integrating state-of-the-art JavaScript libraries and debugging techniques, version control management, and improving application performance. In my experience, I prioritize learning, socializing, and taking initiative.

## WORK EXPERIENCE

### Software Engineer

#### Venturenox

01/2023 - 12/2023

Lahore, Remote

##### Achievements/Tasks

- Collaborated for precise project estimation and in-depth requirement analysis.
- Engineered efficient, reusable React components, adhering to industry standards.
- Seamlessly integrated frontend with robust backend APIs, optimizing performance.
- Led requirement gathering, maintained documentation, fostering transparent collaboration.

## PERSONAL PROJECTS

### Fuse App

- Implemented a versatile React application with Fuse theme framework, featuring multiple layouts and customizable themes, accompanied by advanced theme management capabilities.
- Integrated diverse designed page layouts into the React app, ensuring rapid development while offering users seamless customization options for their visual experience.

### Mega Mart

- Pioneered the development of an intuitive frontend interface using React, optimizing navigation for customers and administrative staff.
- Collaborated closely with backend specialists to integrate essential features such as inventory management, order processing, and secure payment systems, ensuring seamless functionality.
- Implemented rigorous testing procedures, including comprehensive end-to-end testing, to validate the platform's reliability and performance under diverse usage scenarios.
- Ensured compliance with industry regulations and implemented robust data security measures to safeguard customer information and transactions.

### Crypto App

- Crafted a feature-rich Crypto Tracker app with real-time prices and comprehensive currency details.
- Utilized React.js, Tailwind CSS, React Router, Material UI, Chart.js, and Netlify.
- Implemented real-time pricing functionality and detailed currency data integration.
- Integrated React Router for efficient routing and Material UI for polished interface components.

## EDUCATION

### BS.Cs

#### Virtual University of Pakistan

05/2018 - 06/2022

Lahore Punjab Pakistan

## PROGRAMMING STACK

### C

### JAVASCRIPT

### REACT

### Redux ( TLK , Thunk )

## ORGANIZATIONS

Ideologic Software House (01/2023 - 12/2023)

Software Engineer(React Developer)

## LANGUAGES
