Farhan Ahmad

React Developer

I'm a skilled and enthusiastic React developer, driven by a passion for creating dynamic and responsive web applications. I possess a solid foundation in React and its ecosystem.. My areas of expertise include developing responsive user interfaces, integrating state-of-the-art javascript libraries and debugging techniques, version control management, and improving application performance.In my experience, I prioritize learning, socializing, and taking initiative.

WORK EXPERIENCE

React Developer
Venturenox
06/2022 - Present   *Lahore,Pakistan*

Achievements/Tasks

- Collaborated closely with cross-functional teams to estimate project efforts accurately and conducted in-depth analysis of requirements for a comprehensive understanding of scope.
- Designed efficient React components with a focus on code reusability and industry standards
- Seamlessly integrated with backend APIs, implemented robust state management, and identified performance bottlenecks for optimized application performance.
- Played a pivotal role in requirement gathering, maintained comprehensive documentation, and contributed to enhancing project transparency and collaboration
- Conducted thorough code analysis, system testing, and debugging to ensure the reliability and stability of implemented solutions.

Software Engineer
Unitrix Solution
01/2022 - 05/2022   *Lahore*

Achievements/Tasks

- Contributed to the design and implementation of a scalable architecture, utilizing modular and reusable code components, design systems, design patterns, and efficient data structures.
- Analyze project requirements to understand scope and complexity
- Implementing best practices and performance optimizations, I achieved a remarkable 45% in user engagement, resulting in faster page loading times.
- Optimize application performance by identifying bottlenecks and areas for improvement.
- Integrated security features, including two-factor authentication, ensure the protection of sensitive user data and maintain trust.
- Enabling seamless and secure user transactions, I integrated multiple payment gateways, guaranteeing transaction security.

EDUCATION

BS.Cs
Virtual University of Pakistan
05/2019 - 06/2023   *Lahore Punjab Pakistan*

PERSONAL PROJECTS

Fuse Theme
- Implemented a versatile React application with Fuse theme framework, featuring multiple layouts and customizable themes, accompanied by advanced theme management capabilities.
- Integrated diverse designed page layouts into the React app, ensuring rapid development while offering users seamless customization options for their visual experience. ⧉

Doctor's Planet
- Spearheaded the development of the user-friendly frontend portal using React, ensuring seamless navigation and an intuitive interface for patients, doctors, and staff.
- Collaborated with backend developers to integrate critical features, such as appointment scheduling, patient records, and billing, ensuring data accuracy and security
- Implemented rigorous testing processes, end-to-end testing, to ensure the portal's reliability and performance under various scenarios.
- Ensured with healthcare regulations and maintained robust data security measures to protect sensitive patient information ⧉

Crypto App
- Crafted a feature-rich Crypto Tracker app with real-time prices and comprehensive currency details.
- Utilized React.js, Tailwind CSS, React Router, Material UI, Chart.js, and Netlify.
- Implemented real-time pricing functionality and detailed currency data integration.
- Integrated React Router for efficient routing and Material UI for polished interface components. ⧉
